About the Types of Dimensions

[GstarCAD 2027](#) · [Command Reference](#)

All of the standard types of dimensions can be created.

[Create Linear Dimensions](#)

Linear dimensions can be created with horizontal, vertical and aligned dimension lines. They can also be stacked or created end to end.

[Create Radial Dimensions](#)

Radial dimensions measure the radius and diameters of arcs and circles with optional centerlines or a center mark.

[Create Angular Dimensions](#)

Angular dimensions measure the angle between two lines or three points.

[Create Ordinate Dimensions](#)

Ordinate dimensions measure the perpendicular distance from an origin point.
