Change RText

[GstarCAD 2027](#) · [Command Reference](#)

The RTEDIT command is used to allow you to edit existing remote text (Rtext) objects.

Operation Steps:

- 1.Start the command.
- 2.Select an RText object.
- 3.You can enter the option to be modified, system will prompt as below.

4.Input "S" can specify text style; Input "H" can input text height value directly; Input "R" can specify text rotation angle; Input "E" will pop up a dialog box as below.

5.Finish modifying Diesel expression and click "OK" .
