Count Blocks

[GstarCAD 2027](#) · [Command Reference](#)

The BCOUNT function is used to count the number of the blocks by list.

Operation steps:

- 1.Start the command, the command line prompts "**Enter to select all blocks or ...**".
- 2.You can press enter to select all the blocks within the drawing or by selecting blocks.
- 3.Once pressing "Enter" the system will display the result in the command line.
