ETT

[GstarCAD 2027](#) · [Command Reference](#)

Normally after extension, the extension effect will be displayed, but ETT command can display the effect in real time until you confirm the position.

Operation steps:

- 1.Start the command.
- 2.Select the line that needs to be extended, the system will choose the nearest side you clicked as extension side automatically .
- 3.Move the cursor and the segment will extend in real time.
