Get Selection by Object/Color

[GstarCAD 2027](#) · [Command Reference](#)

The GETENTCOLSEL command is used to select entities by entity type and color.

Operation Steps:

- 1.Start the command.
- 2.Select one object and system will take the object's color as target color.
- 3.Specify region.
- 4.System will select the objects which have the same entity type and color as the target object automatically.
