Share Data Between Drawings and Applications

[GstarCAD 2027](#) · [Command Reference](#)

[Reference Other Drawing Files](#)

An entire drawing can be attached to the current drawing as a referenced drawing (xref).

[Link and Embed Data \(OLE\)](#)

You can copy or move information from one application to another using the Microsoft Windows OLE feature. You can edit information of OLE in the original application.

[DWF Underlay](#)

[PDF Underlay](#)

[PDF Import](#)

[Import](#)

[Other File Formats](#)

You can work with many types of files which are created with other applications or in earlier release of the program.
