Start a Drawing from Scratch

[GstarCAD 2027](#) · [Command Reference](#)

If you want to start a new drawing from scratch, you can use the settings from a default drawing template file.

Use the "Create New Drawing" Dialog Box

If you want to display the "Create New Drawing" dialog box, the following conditions must be met:

- The STARTUP system variable is set to 1 (on).
- The FILEDIA system variable is set to 1 (on).

To start a new drawing, you can choose from various methods in the "Create New Drawing" dialog box.

Use the "Select Template" Dialog Box

If you want to use the "Select Template" dialog box directly, the following conditions must be met:

- The STARTUP system variable is set to 0 (off).
- The FILEDIA system variable is set to 1 (on).
