To Apply Dimension Style Overrides

[GstarCAD 2027](#) · [Command Reference](#)

To Apply Dimension Style Overrides

1. Click Dimension > Dimension Style on the main menu.
2. The Dimension Style Manager dialog box is displayed, in which you can click Override.
3. The Override Current Style dialog box is displayed, in which you can enter the style overrides and then click OK.
4. The program displays <style overrides> below the dimension style name in the Dimension Style Manager dialog box. After you create dimension style overrides, you can continue to modify dimension styles, compare them with other dimension styles, or delete or rename the overrides.
