To Attach and Detach Raster Images

[GstarCAD 2027](#) · [Command Reference](#)

To Attach Raster Images

1. Click Insert > Raster Image Reference on the main menu.
2. The Select Reference File dialog box is displayed, select a file name from the list or enter the name of the image file in the File Name box. Click Open.
3. The Attach Image dialog box is displayed, you can select Specify On-Screen to use the pointing device to insert the image at the location, scale, or angle you want.
You can also clear Specify On-Screen and enter values under the Insertion Point, Scale, or Rotation.
4. Click OK to complete the command.

To Detach Raster Images

1. Click Tools > Palettes > External References on the main menu.
2. In the External Reference palette, select the image that you want to detach.
3. Right-click the selected image and choose Detach.
4. The image is no longer linked to the drawing file, and all instances of the image are removed from the drawing.
