To Break or Join Objects

[GstarCAD 2027](#) · [Command Reference](#)

To Join Objects

1. Click Modify > Join on the main menu.
2. Select a source object or a merger of multiple objects to join together.
3. Press Enter to end the command.

To Break an Object

1. Click Modify > Break on the main menu.
2. Select the object to break. By default, the point at which you select the object is the first break point. To select a different pair of break points, enter F (First point) and specify the first break point.
3. Specify the second break point.
