To Change a Plot Style's Description

[GstarCAD 2027](#) · [Command Reference](#)

To Change a Plot Style's Description

1. Click Application menu > Plot > Plot Style Manager or enter the STYLESMANAGER command at the command line.
2. The PrintStyles folder is displayed, in which you can double-click the plot style table that contains the plot style whose description you want to change.
3. The Plot Style Table Editor is displayed, Form View tab, select the plot style whose description you want to change.
4. Under Description, change the plot style's description.
5. Click Save & Close.
