To Change the Visibility of Objects in the Current Visibility State

[GstarCAD 2027](#) · [Command Reference](#)

To Change the Visibility of Objects in the Current Visibility State

1. Click Insert tab > Block Definition panel > Block Editor in the ribbon.
2. The Edit Block Definition dialog box is displayed, select the block you want to modify.
3. You can do one of the following:

- Click the Block Editor ribbon contextual tab > Visibility panel > Make Visible. The objects that are currently hidden are displayed in a dimmed state.
- Click the Block Editor ribbon contextual tab > Visibility panel > Make Invisible.

4. Select objects whose visibility you want to change in the drawing area and press Enter.
