To Create a Multiline Style

[GstarCAD 2027](#) · [Command Reference](#)

To Create a Multiline Style

1. Click Format > Multiline Style on the main menu.
2. The Multiline Style dialog box is displayed, click New.
3. The New Styles dialog box is displayed, in which you can enter a name for the multiline style and select a multiline style from which to start. Click Continue.
4. The New Multiline Styles dialog box is displayed, select the parameters for the multiline style and click OK.
5. In the Multiline Style dialog box, click Save to save the multiline style to a file (the default is gcad.mln). The Save Multiline Style dialog box is displayed.
