To Define or Modify a Cell Style

[GstarCAD 2027](#) · [Command Reference](#)

To Define or Modify a Cell Style

1. Click Format > Table Style on the main menu.
2. The Table Style dialog box is displayed, select a table style that contains the cell style you want to modify in the Styles list and click Modify, or click New to create a new table style.
3. The Modify Table Style dialog box is displayed, in the Cell Styles drop-down list, select a cell style to modify, or create a new cell style by clicking the button to the right of the drop-down list.
4. Click OK.
