To Draw Multilines

[GstarCAD 2027](#) · [Command Reference](#)

To Draw Multilines

1. Click Draw > Multiline on the main menu.
2. Enter ST (STyle) at the command prompt to select a style.
3. Enter J and select top, zero, or bottom justification.
4. Enter S and enter a new mline scale.
5. Specify the start point.
6. Specify the next point.
7. Specify additional points or press Enter.
