To Edit an Xref in a Separate Window

[GstarCAD 2027](#) · [Command Reference](#)

To Edit an Xref in a Separate Window

1. Click Tools > Palettes > External References on the main menu.
2. The External Reference palette is displayed, select the reference that you want to edit.
3. Right-click and choose Open.
4. The source file for the selected xrefs opens in a new window, where you can edit, save, and close the drawing.
