To Export Model Space to a PDF File

[GstarCAD 2027](#) · [Command Reference](#)

To Export Model Space to a PDF File

1. Click the Model tab at the bottom left of the drawing area.
2. Click File > Plot on the main menu.
3. The Plot dialog box is displayed, Under Printer/Plotter, in the Name box, select the most appropriate PDF plotter configuration (PC3 file) to match your requirement.
4. Specify the paper size, plot area, plot scale, plot offset, drawing orientation and other options.
5. Click OK.
6. The Browse for Plot File dialog box is displayed, select a location and enter a file name for the PDF file.
7. Click Save.
