## To Export a Layout to Model Space in a New Drawing

[GstarCAD 2027](#) · [Command Reference](#)

### To Export a Layout to Model Space in a New Drawing

1. Enter the EXPORTLAYOUT command at the command prompt. **Note:** This command is only allowed in Layout Tab.
2. The Export Layout dialog box is displayed, in which you can enter a file name and specify the location where you want to save the file.
