To Group Objects

[GstarCAD 2027](#) · [Command Reference](#)

Create an Unnamed Group

1. Click Tools > Group on the main menu.
2. Select objects you want to group. The selected objects are grouped together into an unnamed group, which is assigned a default name such as *A1.

Create a Named Group

1. Click Tools > Group on the main menu.
2. At the prompt, enter N and type a name for the group.
3. Select the objects to group and press Enter.

Rename a Group

1. Click Group Edit in the Groups Panel in the ribbon.
2. Select the group you want to rename.
3. At the command prompt, enter REN (rename).
4. Enter a new name for group.
