To Import PDF Data

[GstarCAD 2027](#) · [Command Reference](#)

To Import PDF Data

1. Click the Application menu > Import > PDF on the main menu.
2. The Select PDF File dialog box is displayed, in which you can specify the PDF file that you want to import, and click Open.
3. The Import PDF dialog box is displayed, in which you can choose the page to import by clicking a thumbnail image or by entering the page number. You can also specify other settings such as Location, PDF data to import, Layers and Import options.
4. Click OK.
5. Set the insert position if prompted.
