To Insert a Field in Text

[GstarCAD 2027](#) · [Command Reference](#)

To Insert a Field in Text

1. Double-click the text to display the text editing dialog box.
2. Place the cursor where you want the field text to appear and right-click. Click Insert Field.
3. The Field dialog box is displayed, in Field Category, select All or select a category. The fields in the selected category are displayed in the Field Names list.
4. In the Field Names list, select a field. The current value of most fields is displayed in a shaded text box to the right of Field Category. The current value of a date field is displayed in the Examples list.
5. Select a format and any other options.
6. Click OK to insert the field.
