To Insert a Formula Field in a Table Cell

[GstarCAD 2027](#) · [Command Reference](#)

To Insert a Formula Field in a Table Cell

1. Click inside a cell.
2. The Table in-place editor is displayed, click the Insert Field button.
3. The Field dialog box is displayed, in the Field Category list, you can select Objects.
4. In Field Names, select Formula.
5. Click Average, Sum or Count button, the Field dialog box closes temporarily. To specify a range, click inside the first and the last cell. The result is appended to the formula.
If you click the Cell button, the Field dialog box closes temporarily. Select a table cell in the drawing. The cell address is appended to the formula.
6. Click OK.
