To Link to a Table in an External Spreadsheet

[GstarCAD 2027](#) · [Command Reference](#)

To Link to a Table in an External Spreadsheet

1. Select the cell in the table you want to link.
2. Enter the DATALINK command at the command prompt.
3. The Data Link Manager dialog box is displayed, in which you can select Create new Excel Datalink option in the tree view.
4. You can enter a new name in the Enter Data Link Name dialog box. Click OK.
5. Click the [...] button to browse for the XLS or CSV file to link.
6. In the New Excel Data Link dialog box, select a link option. Click OK.
7. Select the new data link in the data link tree view. Click OK.
