To Modify Multiline Text

[GstarCAD 2027](#) · [Command Reference](#)

To Edit Multiline Text

1. Double-click a multiline text object.
2. In the In-Place Text Editor, enter the new text.
3. Click in the drawing outside the editor to save your changes and exit the editor.

To Change Multiline Text Properties

1. Select a multiline text object.
2. Right-click the selected object and select Properties.
3. The Properties palette is displayed, you can enter any new text, and then change formatting and other properties as needed.
