To Open Drawings

[GstarCAD 2027](#) · [Command Reference](#)

You can open DWG, DWT, DWS or DXF drawing, which is created by GstarCAD or another CAD.

To open a drawing

1. You can use one of the following methods to activate the OPEN command:
 - Click File > Open on the main menu.
 - On the Standard toolbar, click the Open button.
 - Type OPEN at the command line and then press Enter.
 - Press CTRL + O.
 - Click Application menu > Open.
2. The Select Files dialog box is displayed, choose the type of file you want to open in Type of Files.
3. Choose the folder containing the file you want to open.
4. Do one of the following:
 - Choose the drawing you want to open, and then click Open.
 - Double-click the drawing you want to open.
