To Plot a DWF File

[GstarCAD 2027](#) · [Command Reference](#)

To Plot a DWF File

1. Click File > Plot on the main menu.
2. The Plot dialog box is displayed, under Printer/Plotter, in the Name box, select the DWF6 ePlot.pc3 configuration from the Name list.
3. Select plot settings for the DWF file as needed.
4. Click OK.
5. The Browse for Plot File dialog box is displayed, select a location and enter a file name for the DWF file.
6. Click Save.
