To Remove a Sheet From a Sheet Set

[GstarCAD 2027](#) · [Command Reference](#)

To Remove a Sheet From a Sheet Set

1. Click Tools > Palettes > Sheet Set Manager on the main menu.
2. The Sheet Set Manager palette is displayed, Under the Sheets List, select one or more sheets, right-click, and choose Remove Sheets. This disassociates the sheet from the sheet set, but does not delete the drawing file or the layout.
