Tool Palettes

[GstarCAD 2027](#) · [Command Reference](#)

Tool palettes are tabbed areas within the Tool Palettes window and they can be used to organize, share and place blocks and other tools.

[Create and Use Tools from Objects and Images](#)

You can drag objects from your drawing onto the tool palette, which creates a new tool. This new tool will have the same properties as the original object and you can use it to create the same object over and over again.
